

DTP Connectors

DTP Series Overview

DEUTSCH DTP series connectors provide solutions for your power application requirements. Building on both the DT and DTM design strengths, the DTP connector line was developed to fill the need for higher amperage, multi-pin connectors. The DTP series offers the designer the ability to use multiple size 12 contacts, each with 25 amp continuous capacity, within a single shell. The DTP connectors are currently available in two and four pin configurations.

DTP SERIES ORDERING INFORMATION

Here are some of the common part numbers in the DTP series. Several additional connectors may be available.

Position	Plug	Receptacle	Plug	Receptacle
			Reduced Dia. Seals	Reduced Dia. Seals
2	DTP06-2S	DTP04-2P	DTP06-2S-C015	DTP04-2P-C015
4	DTP06-4S	DTP04-4P	DTP06-4S-C015	DTP04-4P-C015

Dalroad

The logo for Dalroad features the word "Dalroad" in a bold, dark blue, sans-serif font. A thin, dark blue curved line starts under the 'D', goes under the 'a', and then curves upwards under the 'o'.

UK Authorised TE Connectivity DEUTSCH Connector Distributor

Dalroad supply a wide range of automotive connectors for use on applications from engines to braking systems, providing a firm, secure cable-to-cable connection.
